

2026 BELT RE-CERTIFICATION PROGRAM FORM

Crow offers a re-web policy for Crow Driver Restraint Systems **ONLY**.

RE-CERTIFY SERVICE INCLUDES: Replacing all the webbing & pads if applicable. *WE USE YOUR HARDWARE.*

- Do not send in your restraints if your hardware is not in EXCELLENT condition, we cannot accept rusty, damaged, or aged hardware.
Your SFI tag cannot not be older than 2021. NOTE: If your restraints do not meet this criteria they will be returned to you at your expense.
- Send in ALL your hardware with your restraints. You cannot switch hardware to another style, i.e. silver to black, kam lock, ratchet, etc. The process of re-certifying is replacing your webbing and reusing your existing hardware.
- Upon inspection, the condition of your hardware may indicate this is the last time these restraints can be re-certified. A yellow label will be sewn on your restraints indicating this, and will also be noted on your invoice.

Date Sent to Crow: _____
